

Mother's Instruction on Teaching Elementals to Decree

1. Mother had a momentum on working with elementals.
 - a. During the Three Mile Island nuclear reactor situation in 1979 Mother worked with the elementals to resolve that dangerous situation:
 - i. She first assembled key elemental beings
 - ii. She sent them to Three Mile Island for the healing of that situation and for the cooling of the reactor.
 - iii. She instructed the salamanders, undines, gnomes and sylphs very specifically what she expected them to do.
 - iv. They performed that mission to absolute perfection.
 - v. They saved the entire planet by stopping the entire situation from going any further.
 - vi. When they completed that mission, they reported back to Mother with a blow by blow account of what they had done.
 - vii. Mother knew even before the media reported it that the situation was under control.
 - b. We can apply these same principles outlined below
2. The elemental kingdom is a part of the physical plane that's not visible.
 - a. Elementals abide in the place where the etheric meets the physical but is not in the spectrum of your physical eyesight.
 - b. It is helpful to maintain your attunement with this plane when working with elementals.
 - c. Clearing your four lower bodies by regular fasting and the right diet allows you to perceive this phase of the physical plane.
3. Elementals are devoted and loving.
 - a. They are just waiting for you to teach them and tell them what to do.
 - b. They are very eager pupils and they will go forth and do what you tell them.
4. Elementals don't have a threefold flame therefore their authority to decree comes from you.
 - a. They may know about decreeing but they must be chelas of an embodied son of God or a daughter of God or a child of God in order to decree.
 - b. This is because they speak the spoken Word by the authority of your threefold flame.
5. When you teach elementals to decree, you then become a teacher of the elementals.
 - a. Instruct the elementals and tell them what you expect them to do each day.
 - b. Teach elementals and you will develop a loyal following that will follow you all over the planet.
 - c. Millions of elementals will then serve with you.
 - d. There is a whole world of evolution waiting to be God-taught.
 - e. Then when you ascend, the elementals can have bequeathed to them a threefold flame and become immortal like Fun Wey.
 - f. This is one very important reason why we should teach elementals to decree.
6. Start by teaching one elemental how to decree
 - a. Then command him to go out and tell all of his fellows how to decree.
 - b. They get excited when you talk to them and tell them what to do because they can then be in the service of the sons and daughters of God.
 - c. They will report back to you that they have accomplished what you have done.
7. You have to practice.

- a. Spend even ten minutes a day instructing elementals.
 - b. It is like when you feed the birds; they get to know you're going to be there every day and they come back and they want to be fed.
8. Elementals have to trust you.
- a. Decide to become a crystal clear pane of glass so nothing in you will offend them.
 - b. When they trust you, life is blessed by your holding the focus of teaching the elementals.
 - c. Give elemental life the violet flame and the love of your heart.
9. Elementals serve the pure in heart.
- a. That's why they're always around children.
 - b. You can't fool the elementals.
 - c. They see through you just like children see through you.
 - d. They know your ulterior motives.
 - e. They know if you're manipulating them because of your pride or your ambition.
 - f. They know everything about you.
 - g. Develop your heart chakra so that you can work with them.
