

INTENSIFY YOUR CALLS FOR THE ELECTIONS

Ascended Master Teachings on Voting in Elections

One Vote Can Make the Difference - Cyclopea

“This earth will be changed in the twinkling of the eye of God! I have said it and it is so! For God can perform his work and he will do so. And what does he require? The same that he required in Sodom—ten righteous men, a hundred, a thousand—I will not tell you the formula, lest you set goals and then be seated when the goals are filled. You may not know when the quotient is reached and when the momentum is filled, beloved ones. You may not know just when the moment comes when the souls of Light have completed the divine matrix in the earth. But I tell you, it will come!

“And you must remember that as in every election the one vote [can make the difference, so it is that] the one individual moving for the Godhead may be that one. And we speak not only of numbers, yet indeed numbers do count. We speak, beloved ones, of the magnitude of your causal body. For some of you already count for ten, some count for a thousand, some count for a million because the cumulative Light of your causal body does shine and count for that many threefold flames in the heart of the earth!”

Cyclopea and Virginia, June 3, 1984, *Pearls of Wisdom*, vol. 32, no. 13, March 26, 1989

Vote Early on Election Day – El Morya and Mother

Long-time staff members remember that Mother recommended that the staff vote early to help set an etheric pattern that other voters coming after us would tend to follow.

“...do you know that the vote of a Lightbearer that is cast on Election Day has of itself a magnitude and is a force to move others to vote in like manner? There is a momentum, then, of light wherever you put your word, your cause, or your right arm, and it attracts more like unto itself. And so if, by a failure to understand the issues you vote for the wrong candidate you are influencing by your very vote others.”

El Morya, July 4, 1978 [not published as a *Pearl of Wisdom*]

Close Margins - Vote of Confidence in the I AM Presence – Lanello

“And so, you see, in the balance of love, wisdom and power upon the planetary body, the computers that function under the Keeper of the Scrolls and the angels of record can release to an ascended master or to our councils at any moment what the projections might be for the release of light during the coming six months, the coming twelve months, the coming five or ten years. Each day adjustments must be made in the calculations according to the rise and fall of the determination, the ability of the individual to cope with his individual karma and with world karma.

“I have brought this matter to your attention this evening because I desire that you should know how important your vote is in heaven—your daily vote for the light, your vote of confidence in the I AM Presence and the Christed being of all mankind. You know how close many elections have been at the national and state levels of government. I desire you to know that in the final

calculations of the manifestations of the sons of light and the sons of darkness upon the planetary home, there is often a very close margin.

“We do not wish to see the fate of a planet held in the balance of such a slim margin of error or of truth. We desire to claim victory, to espouse the cause, to defend the faith, and to secure the bastions of liberty in the children of light, to see them arrayed in divine wisdom, in clarity of perception that they shall make their calling and election sure.”

Beloved Lanello 1973

Vote for the Person with the Highest Light – Mother

“You must be careful. It’s important to vote for the person that you feel is carrying the highest light...if there’s somebody who at least is a son of God, maybe he has a few wrong ideas, maybe we don’t like the way he talks, but at least his origin is in light. I’d vote for him and I’d pray for him that he would overcome his faults.”

Elizabeth Clare Prophet, April 11, 1974

To Vote Responsibly People Need to Know the Facts About the Candidates – Morya

“Most of the people of the world believe whatever they are told. That is because they have not had the education required. Thus, beloved, how can those of a free world truly vote and vote responsibly when they do not have the facts about their leaders, facts that are not told, facts that are hidden. It is the same in every nation.

“Therefore I ask you to give your calls to Almighty God that the high offices of government in every nation upon earth shall be filled by those who enter the Christ spirit and who do not lead by pride or by evil means. Yet, beloved, we would ask you to surely intensify your calls regarding the elections soon to be [held] in this nation. Realize, beloved, that the vote does count and the vote is a mark almost as a match that is struck, a fire that is ignited, another flame for this candidate or for that candidate. ”

Beloved El Morya, *Pearls of Wisdom*, vol. 45, no. 52, December 29, 2002

Look for Ascended Masters’ Candidates and Vote for the Nearest Best – Lord Maitreya

“Blessed ones, look for the ascended masters’ own choice candidates and vote for the nearest best, those who are most likely to lead America and every nation and city and town closer to the divine standard of the inner Christ. Help such individuals who are so striving, and call for the mighty light rays and the river of God himself to cleanse, therefore, all political organizations, political activities, and politicians... Thus, with Confucius and Lord Lanto, I say, look for the light-bearers who have the potential to lead to victory a city or state or nation! And go behind those ones with a full fervor of the violet flame. But be impartial and do not be idolatrous; therefore, you will not be disappointed when some for whom you have voted do not fulfill the full standards they have promised or do not follow exactly the line of the Brotherhood.

Lord Maitreya, *Pearls of Wisdom*, vol., 26, no. 38, September 29, 1983

INSPIRATION FROM ASCENDED MASTER GODFRE – GEORGE WASHINGTON

Let's Give It All We've Got! – Godfre

O blessed ones, just think of it. You are not called to go to war, to go into battle where you may lose your life or even give your life in honor and nobility. You are not called to leave your families or the comforts of home or even your jobs but only to be at this sanctuary daily if you can. For it is vital in this hour that our sanctuaries be full worldwide and such power be invoked as to test the very limits of heaven as to what heaven will do for the raising up of Freedom.

Blessed hearts, I come with my joy, my threefold flame, my spirit, and I say, Let us give it all we've got! Let us give all of our might, all of our love, all of our desire, all that we might have given in past lives but have not, all that we say we shall give in this life and in the next. Let us give it now!

Beloved Godfre, July 14, 1987, *Pearls of Wisdom*, vol. 30, no. 45, November 8, 1987

Washington's Prayer Was Answered from Sirius Kneel Daily with Godfre—and the Blue Eagle Will Deliver America

Saint Germain has explained that it was a formation of blue-lightning angels that answered the prayers of George Washington (now the ascended master Godfre) in Valley Forge:

“I see him kneeling in prayer, praying on behalf of America. And I see legions from the God Star Sirius hearken to the prayers of the general. I see how the words spoken from his lips on that cold day in the wood were heard by the mighty Blue Eagle of Sirius, who responded instantaneously—these legions of light who made their way, encamping round about him and among the men and, by the infusion of that God-light, securing the victory....

“Above all, I ask you, Keepers of the Flame, to kneel in prayer once a day with Godfre and with me before you retire and to remember to call for the victory of light in America and in the hearts of the American people. And I can assure you by all that lives and breathes, by all that is holy in love, the mighty Blue Eagle from Sirius will answer your call and will deliver this nation as one nation under God—individed, undivided, secure in the oneness of the light.”

Saint Germain, quoted in *The Masters and Their Retreats*, Summit University Press, p. 46
