

The Summit Lighthouse® and Church Universal and Triumphant®

OFFICE OF THE SPIRITUAL DIRECTOR

September 16, 2016

Dear Decree Leader,

In an effort to make sure that we are following the masters' directives regarding the Saint Germain Service, I am attaching a document with selections from the *Services and Rituals Manual* which explains the importance of the Saint Germain Service and outlines the basic structure of this service, including a sample matrix with recommended decrees.

The Saint Germain Service is the most important service of the week where we gather in numbers to give the ascended masters the energy they need to intercede for ourselves, the community and the planet. Our calls must be powerful to invoke the counterpoint of light that will challenge the darkness of communism, terrorism and other major issues that we are working on. Please keep this in mind when creating your decree matrices.

I would like to ask you to please be sure when the service has two segments to coordinate with the decree leader who is responsible for the second half so there is a correct balance in the combined decree work that is covered. Please note that it is not necessary to begin another section of blue decrees at the beginning of the second half of the decree service. The foundation of protection is laid in the first half of the service.

Denise Adams, our Services and Sacraments Coordinator is available to help you in building your services. She can be reached at dadams@tsl.org or (406) 848-7196.

Thank you for your sacred service,

Rev. David Drye
Spiritual Director
